Keystone Printing Ink Technical Data Sheet

Didde Glaser - 41 Series

Series Summary: The Didde Glaser – 41 series is a high solids, low VOC (7% or less) forms ink with a high resin and pigment loading. Together these qualities give bright, clean images whether printing a full strength color or a subtle tint. The Didde Glaser – 41 series also delivers outstanding rub resistance and press stability. The Didde Glaser – 41 inks are available in a (4) four color process series as well as all (14) fourteen Basic Colors.

Advantages:	Quick Setting	Hard Drying
	Excellent Rub Resistance	Good Press Stability
	Batch to Batch Consistency	Low VOCs

Packaging: Available in 3 ½ Gallon Plastic Kits and Five Pound Metal Containers.

Technical Data:	Tack @ 1200 rpm :	10.0 – 14.0
	Stability @ 1200 rpm for 10 min :	0.5 – 2.5
	Misting @ 1200 rpm for 3 min :	negligible

Note: All inks are tested using Keystone Printing Ink Company approved test methods. Materials tested under like conditions with different instrumentation may yield different results.

The merchandise herein contained is sold without warranties express or implied. These conditions shall not be waived other than by an offer of the seller in writing.
